## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. ***Claims 1-9 and 16-19*** are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the references used singularly or in combination teach a method for driving an active matrix liquid crystal display apparatus comprising scanning successively a plurality of scan lines in a first field of a frame and simultaneously resetting a voltage difference between pixel electrodes and common electrodes; scanning successively the scan lines in a second field of the frame in an order reverse to that in the first field and simultaneously resetting a voltage difference between pixel electrodes and common electrodes. While Mihara, Okada et al. and Hashimoto et al. teach all of the aspect of the invention, there fails to be any motivation to combine the references to produced the claimed invention as recited by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
